HOLIDAY GUIDE

Canada's Sunniest Clime

and the Canadian Rockies

A Guide for Safer Driving

These are criminal offences:

1. Driving in a wanton or dangerous manner.
2. Failing to return to the scene of an accident.
3. Driving any motor vehicle without the consent of its owner.
4. Being in charge of a motor vehicle, in motion or not, while intoxicated.
5. Driving if your driver's license is suspended or cancelled in this or any other province.

DON'T DRINK WHEN DRIVING.
DON'T DRIVE WHEN DRINKING.

For Drunken Driving:

Seven days in jail AND driver's license suspended for one year.

Speed Limits for Passenger Cars:

60 m.p.h. on highways day or night.
25 m.p.h. in marked rural school zones and in cities, towns and villages. 20 m.p.h. in marked city school zones.

Rules of the Road

Always yield right-of-way to the driver on your right.

NOTE: Do not insist on your right-of-way, the other driver may not know.

Pedestrians have the right-of-way but they too must obey traffic lights.

Passing: Never pass the vehicle ahead of you on hills, curves or narrow bridges. Never pass over a solid centre line. Never pass a standing school bus until all passengers are clear. At other places look ahead, and if clear, pass on left side only.

Left Turn: Keep in traffic lane nearest the centre line, signal and watch out for oncoming traffic.

Right Turn: Keep in traffic lane nearest the right.

Signals: The man behind can't read your mind. Signal your intention with an approved mechanical or electrical device or by using your hand and arm in this manner:

Welcome Friend!

We are always glad to meet you. Please make yourself at home. What you don't see, ask for!

We shall do our best to make your first visit so well-remembered... that you'll come again... Yes, come again, and bring your friends... We'd like to welcome them, too!

Sincerely
Alberta

Edmonton.

Information Bureau

Visitors are invited to visit the information bureau at the junction of Highways No. 2 and No. 3 west of Fort Macleod, Alberta, during the summer holiday season.

This bureau has been established especially to render service to motorists entering or leaving the province and is staffed by personnel competent to give the visitor accurate information about roads, accommodations, current events of special interest and facts concerning other holiday activities. Reservations at Calgary and Banff may be made by teletype.

BANFF—Parks Information Bureau, Banff town.

CALGARY—810 Center Street.

EDMONTON—Provincial Building, 100A Ave. and 100A Street.

JASPER—Parks Information Bureau, Connaught Drive.

LETHBRIDGE—Marquis Hotel.

MEDICINE HAT—Corner S. Railway Street and 2nd Street.

There are no toll roads, toll bridges or toll ferries in Alberta.

Customs

Open Hours at Entry Points

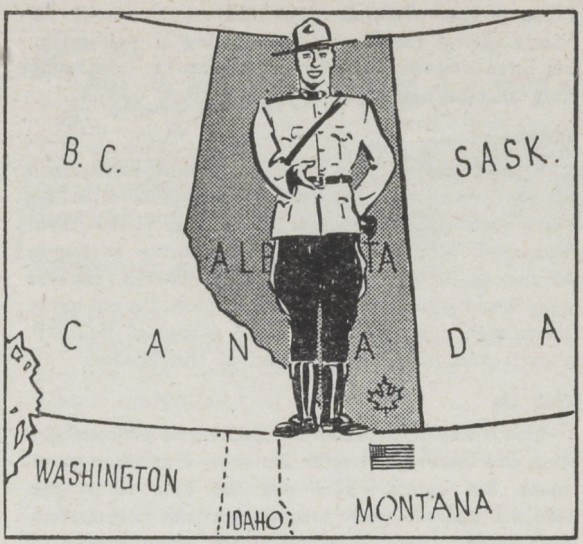

CARWAY—July 1 to Sept. 15; 8:00 a.m. to 10:00 p.m. Remainder of year from 9:00 a.m. to 6:00 p.m.

CHIEF MOUNTAIN—Summer office only. May 24 to June 30; 8:00 a.m. to 6:00 p.m. July 1 to Sept. 15; 7:00 a.m. to 10:00 p.m. Sept. 16 to Sept. 30; 8:00 a.m. to 6:00 p.m.

COUTTS—24-hour service all year.

WILD HORSE—8:30 a.m. to 5:30 p.m. all year.

KINGSGATE, B.C.—7:00 a.m. to 10:00 p.m. all year.

A FRIENDLY BORDER

If this visit to Alberta is to be your first, you will be pleased to discover the simplicity of border crossing. We're sure you will find friendly government officials and no annoying red tape. We are sincerely happy to have you here and our welcome is as warm and as glowing as that smiling sun for which Alberta is so famous. It's as easy to come into Alberta as it is to cross a state line, and if you should like to stay longer than six months it can be arranged.

You'll need to carry identification papers, to prove on your return that you're an American citizen.

Your Money

As for money—you can bring as much as you want. You may purchase Canadian funds in the United States, but U.S. currency is handier because it is accepted by Canadian banks at Foreign Exchange Control Board rates and if you use U.S. funds in Canada you won't have to bother exchanging Canadian money when you return home.

You will always be assured of obtaining the prevailing exchange rate by buying Canadian funds at any Canadian bank. Business houses may not always allow the prevailing rate.

Bring—

Cameras should never be left at home at holiday time. You can bring yours in, with a reasonable amount of film. Bring all your fishing tackle and food supplies if you desire. Although the temperatures during the day are usually well above 80, you will find that evenings are quite cool and conducive to sleep—particularly in the mountains.

Bring proper clothing; that old sweater will be handy. Bring the family cat or dog if you wish, but have a certificate from a veterinarian certifying it is in good health.

Firearms

Nimrods may bring shot guns and rifles, and up to fifty rounds per person, but guns must be registered with the nearest detachment of the Royal Canadian Mounted Police. Do not bring revolvers or pistols. If you are en route to Alaska, express your hand guns to your address there. Do not carry them with you unless you have a special R.C.M.P. permit and have them sealed at the border.

Tell Us

You'll find that prices for meals and accommodation are lower than most states or Canadian provinces. But here's where you can help us. If you are not pleased with your food, if the accommodation is not bright and clean and comfortable, if the service falls below par—voice your complaint to the manager. But—he likes your compliments as well, and he'll be pleased if you can tell him that your cabin was excellent, or that the steak was perfectly prepared. This helps us to make the situation better for others; to strengthen that spirit of comradeship exisiting between the countries on either side of the 49th parallel.

At the border, ask for an official Alberta Government road map, information booklets and windshield sticker. Map and booklet will prove valuable as sources of information and the sticker becomes a souvenir of your visit and a marker to identify you as our special guest, signal for a hearty welcome wherever you go.

DON'T FORGET

Events of major importance:

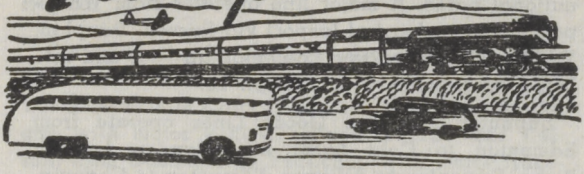

THE CALGARY STAMPEDE
Annually 2nd week in July

BANFF INDIAN DAYS
3rd Week in July

EDMONTON EXHIBITION
3rd week in July

TOTEM POLE TOURNEY—JASPER
During the week of Labour Day.

Transportation

RAILWAYS:

Two transcontinental railways serve Alberta, as well as the Great Northern and the Northern Alberta railways.

The main line of the Canadian National Railway crosses north-central Alberta from Wainwright to Jasper, passing through Edmonton.

The main line of the Canadian Pacific Railway crosses the southern portion of the province from Medicine Hat to Banff, passing through Calgary. Both of these lines connect with feeder lines serving the province.

The main line of the C.N.R. crosses the Rockies through Yellowhead Pass in Jasper National Park; the main line of the C.P.R. uses the Kicking Horse Pass and a line from Medicine Hat through Lethbridge crosses by the Crows Nest Pass in the southernmost section.

Running north and south, Canadian Pacific and Canadian National lines connecting Edmonton, Calgary and Lethbridge are vital arteries.

The Northern Alberta Railway links the productive northern areas with Edmonton; with lines to Peace River, Grande Prairie and Dawson Creek, Alaska Highway terminus. Another N.A.R. line extends to the north-east serving the fabulous tar-sand deposits at McMurray and connecting with the historic mining and trapping regions of the north through Waterways, now incorporated with McMurray.

The Great Northern Railway makes connection at the southern border with the Canadian Pacific line from Lethbridge. It also serves Waterton-Glacier International Peace Park by bus through Glacier station in Montana and by boat up the lake to Prince of Wales Hotel at Waterton.

More detailed information concerning lines and schedules may be obtained by contacting your nearest railway or travel agent.

BUS ROUTES:

Alberta points are well served by daily bus schedules throughout the province. Greyhound Lines provide connections with centres beyond our borders. The Western Canadian Greyhound Lines

Limited connects Calgary with Vancouver, Medicine Hat to Banff, Calgary to Cardston, Edmonton to Calgary and Lethbridge, and direct lines to the national parks. A major line operates from Winnipeg to Hinton (east of Jasper) via Russell, Dauphin, Yorkton, Saskatoon and Edmonton all year and into Jasper from June 15 until Sept. 15.

Sunburst and Blue Goose Lines operate from Edmonton to Cold Lake, Edmonton to Lac La Biche, Edmonton to Alliance, Edmonton to Chauvin, Edmonton to Winfield and Buck Lake, and Edmonton to Alix.

Canadian Coachways Limited operates from Edmonton to Devon, Breton, Winfield, Rimbey and Lacombe, Edmonton to Athabasca, Edmonton to Smith via Westlock, Edmonton to Mayerthorpe and Whitecourt, Edmonton to Lac La Nonne, Edmonton to Grande Prairie and Dawson Creek, Edmonton to Peace River and Hines Creek, (Alaska Highway feeders), and Edmonton, Peace River and Lower Hay River, (Mackenzie Highway).

Most companies operate a schedule of special summer trips to the vacation resorts on Sundays and long holiday week-ends. Further information may be obtained by contacting the companies concerned or by writing care of the bus depots at Edmonton or Calgary.

AIR SERVICES:

Since much of the growth and expansion of the rich country to the north was due to the efforts of pioneer bush pilots, it is logical that air travel facilities should be modern and extensive in Alberta. Major lines serving the province include Trans-Canada Air Lines, Canadian Pacific Air Lines, Northwest Airlines which uses Edmonton as a stopping-place for its Orient express, and Western Air Lines.

Customs airports are located at Lethbridge, Calgary and Edmonton. Medicine Hat has customs facilities for aircraft flying for health or pleasure, either privately owned or chartered, and carrying only passengers and their baggage.

In Alberta, Canadian Pacific Airlines operates flights from Edmonton to Grande Prairie, Peace River, Fort Vermilion and Yellowknife; Edmonton to Fort McMurray, Fort Smith, Fort Resolution and Yellowknife; Edmonton to Fort McMurray, Goldfields (Uranium City); Edmonton to Grande Prairie, Peace River, Dawson Creek, Fort St. John, Fort Nelson, Watson Lake, Whitehorse, Mayo, Dawson City and Fairbanks; Edmonton to Fort McMurray, Fort Smith, Hay River, Providence, Fort Simpson, Wrigley, Fort Norman, Norman Wells, Good Hope, Arctic Red River, Fort McPherson and

Aklavik; Edmonton to Lloydminster, North Battleford, Prince Albert, Saskatoon, Moose Jaw and Regina.

Canadian Pacific Airlines also operates flights from Fort St. John to Prince George, Quesnel and Vancouver; from Calgary to Cranbrook and Castlegar, with motor vehicle service to Trail and Nelson; from Castlegar to Penticton, with motor transportation to various points in the Okanagan Valley and from Penticton to Vancouver.

Further information concerning schedules may be obtained from your nearest airlines office or by writing direct to Canadian Pacific Airlines, C.P.R. Building, Edmonton, Alberta.

Trans-Canada Airlines operates into Alberta from both east and west. Main lines extend from Winnipeg and points east to Saskatoon, Edmonton and Vancouver; from Winnipeg and points east to Calgary and Vancouver; from Regina through Swift Current, Medicine Hat and Lethbridge to Calgary and Edmonton.

Connections may be made from United States points to any U.S. point served by regular United States airlines.

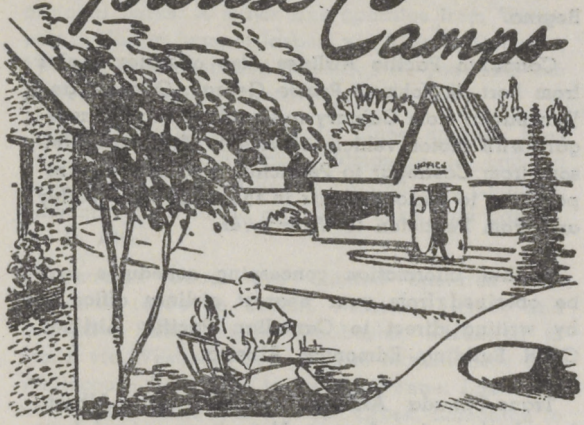

Detailed information concerning schedules and rates may be obtained from your nearest airlines office or by writing direct to Trans-Canada Airlines, Macdonald Hotel, Edmonton, Alberta.

Chartered Buses

Chartered busses exceeding thirty feet long and seven feet six inches wide must have special permits to travel over highways in Banff, Jasper, Yoho and Kootenay National Parks. Permits are granted only under very special circumstances.

Application should be made to the Parks Superintendent, Banff National Park, Banff, Alberta.

Tourist Camps

All tourist camps in Alberta are licensed by the Department of Industries and Labour and approved by the town planning supervisor and the Department of Health. Tourists are advised to obtain full information on routes and camps from authorized information bureaus.

Cabins are graded "A", "B", "C" or "D" according to their construction and the standards of their facilities and furnishings. The Grade "A" cabin has complete bathroom equipment with bath or shower and complete kitchen facilities except where adequate eating facilities are conveniently available. Grade "A" cabin floors must be covered with either carpets or linoleum, the beds must be equipped with inner spring mattresses, the furniture must be of a high quality and, in short, the "A" cabin must provide the highest available standard of comfort and convenience. In Grade "B" cabins, the floors need not be covered but must be painted and furnishings need not be of the highest standard but bath room facilities must be provided. Grade "C" cabins need not have private bath room facilities. Grade "D" cabins must be approved but are those which fall below the requirements of the "C" cabin.

In addition to tourist camps listed, accommodation is available in rooming houses. The Canadian Youth Hostel movement maintains hostels for hikers in several mountain and foothill locations.

The following listing gives, in this order, the name of place, name of camp, grade of cabin and number of each grade, rates and plan, (A) American, (E) European—without meals.

ATHABASCA—Athabasca Auto Court, D-6, trailers and tenting, $2.00 to $6.00; **Boulevard Auto Court,** D-5, trailers, $3.00 to $4.00; **Smith's Cabins,** D-7, trailers and tenting, $2.50 to $3.00; **Thorlea Cabins,** D-5, trailers and tenting, $3.25 to $4.00.

(A) indicates American plan (with meals)
(E) indicates European plan (without meals)

NOTE: Rates quoted are the latest available but may be subject to minor revision from time to time.

Unless visitors are carrying their own camping equipment or have automobile trailers, it would be advisable to reserve accommodation in advance. Camping has always been popular in the Waterton Lakes area. Since it became a national park, many of the most suitable camp-sites have been improved. Some have been equipped with electric light, running water, kitchen and community shelters, tables, stoves, fuel and sanitary facilities. Most of these camping sites are within reasonable distance of supplies.

Youngstown—Empire, 32nb, $1.25S, $2.25D up, dr. and cs.

Alberta's topography is such that the large number of excellent golf courses was inevitable. Some of the sportiest layouts on the continent are located within our borders. The national parks boast several nine and eighteen-hole units; each city provides complete facilities, and smaller centers all have popular courses.

Our long summer days and pleasant, cool evenings fit right into the par-buster's almanac.

In the National Parks:

BANFF—Banff Spring Hotel, Cascade Club.

ELK ISLAND—Government Course.

JASPER—Jasper Park Lodge, Jasper Park Golf Club.

WATERTON—Waterton Golf Club.

In the Cities:

CALGARY—The Beaver Golf Club, Bowness Golf Club, Golf and Country Club, Earl Grey Golf Club, Regal Golf Club.

EDMONTON—Golf and Country Club, Highlands Golf Club, Municipal Golf Club, Mayfair Golf Club, Riverside Municipal Golf Club.

LETHBRIDGE—Lethbridge Country Club, Lethbridge Golf Club.

MEDICINE HAT—Connaught Golf Club, Medicine Hat Golf Club.

Single courses in the following centres: Bashaw, Bassano, Bentley, Blackie, Blairmore, Brooks, Crow's Nest Pass, Camrose, Carmangay, Castor, Cereal, Champion, Coronation, Claresholm, Craigmyle, Drumheller, Gadsby, Grande Prairie, Hanna, Hardisty, High River, Hughenden, Innisfail, Lougheed, Lundbreck, Fort Macleod, Lacombe, Nanton, Nordegg, Oyen, Peace River, Pincher Creek, Provost, Red Deer, Stavely, Stettler, Strathmore, Sylvan Lake, Taber, Trochu, Vegreville, Vermilion, Veteran, Vulcan, Wainwright, Wetaskiwin.

Guest Ranches

"Dude" ranches in Alberta are, for the most part, operating-ranches which run cattle or horses on the ranges as a business, but which extend a sincere western welcome to guests during the summer season. Thus, the atmosphere is REAL, the visitor gets the true contact with life in the open, stripped of ballyhoo and showmanship. You can pound leather from dawn to dusk with the "hands" if your ambition is to reduce the waistline and seating capacity. You may enjoy short or long easy-going rides through rolling foothills or rugged mountains. You may use the ranch as headquarters for camping trips by pack train. You may fish, collect flowers and butterflies or just "set." And many guest ranches are also ideal hunting lodges.

BRAGG CREEK—The J Bar J Ranch advertises "pack trips to make an oldtimer out of you in two weeks." On the J Bar J agenda are stampedes, riding, fishing, pack trips through the mountains. A ranch car will meet all trains, planes or buses in Calgary by appointment. Rates $6.00 per day including riding.

BEAVER MINES—The Buckhorn Ranch, operated by Clifton C. Cross, has accommodation for 40 persons, with 11 private cabins. The ranch has 70 horses and a full-time staff of 16. It is located 18 miles south-west of Pincher Creek, in a district noted for good fishing, swimming and big game hunting in season. Weekly dances are a feature of the ranch's entertainment program. Reservations are accepted for June 15 to September 15; however limited accommodation requires that reservations be made early as possible. Rates $6.00 per day per person and up. Children 6 years and under, half price. These prices include meals, horses, guides, local trips, etc. Guests transported from bus or station to ranch at a charge of $2.00 per person each way.

BRULE—The Rocky Mountain Black Cat Ranch, Jasper Post Office, is located near Solomon Creek on the eastern border of Jasper National Park. There's first-class accommodation on this spread, six miles by wagon road from the Brule station on the mainline C.N.R.

CANMORE—The Canmore Ranch operates five cabins. Horses are available, in addition to hunting and fishing trips and scenic pack trips.

COCHRANE—The Ghost Dude Ranch has accommodation for 20 guests. In addition to having accommodation in the ranch house and individual cabins, the ranch is prepared to cater to large dinners or luncheons for clubs or other organiza-

tions. There is a Greyhound Bus service twice daily to the ranch, situated 23 miles west of Calgary on Highway No. 1. **Valnorma Guest Ranch,** situated on the banks of the Ghost River, a short way from the head of the Ghost Lake and fifteen minutes drive from the Calgary-Banff Highway. An ideal place for a limited number of guests who wish to relax from the turmoil of city life. Beautiful scenery, excellent riding country, hiking, fishing, swimming. European and American cuisine. Rates on application to Geo. W. Pocaterra, 1106 14 St. West, Calgary.

EVANSBURG—P. V. Ranch, situated just 65 miles West of Edmonton on the hard surfaced Jasper Highway. Modern, comfortable log cabins equipped with electricity, comfortable inner-spring mattress beds, the whole camp nestled in the beautiful Pembina Valley on the shores of the Pembina River. Horseback riding, with skilled wranglers, hunting and fishing in season, games, sports, and many many more things to do. Private cabins with maid service, your own private horse with western saddle, swimming, games, nightly entertainment and square dances, finest western food prepared by ranch chefs. $8.00 per day, family and weekly rates on request.

HINTON—Bar BQ Ranch lies in pleasant foothill country east of Jasper. Caters especially to the younger crowd. Gentle horses, home cooking, good fishing. Four grade "C" cabins. Write Vic Webb, Hinton, for rates, etc. Overnight cabins also.

LONGVIEW—The Stampede Ranch is operated as a regular cattle ranch which takes on a few paying guests. The latter sleep in the main ranch house, in log cabins or in genuine Indian teepees. Expert cowboy guides handle trips through the area. A bus from Waterton Lakes Park to High River makes the ranch easily accessible. Rates will be given on application; season May 15 to October 1.

MOUNTAIN VIEW—The Pine Lodge Ranch is on the boundary of Waterton National Park six miles from the Cardston-Waterton Highway. The ranch itself is located in the shadow of Big Chief Mountain and offers big game hunting and winter sports, both in season. In addition there are excursions by jeep into the rugged western country. Rates from $50.00 per week up.

NANTON—The Trail's End Riding Camp is in the ranching country of the Porcupine Hills "for those who care to ride, hike or loaf." Rates vary from $22.00 to $25.00 per week, horses included, with family rates available on application. Western food—plain and plenty.

PINCHER CREEK—Jo Guest Ranch, 17 miles west of Pincher Creek, Alberta, overlooking Victoria, Castle and Table mountains and adjacent to Waterton Lakes National Park. Riding or hiking over foothill and mountain trails . . . for the fisherman, rainbow and speckled trout . . . big game hunting, as well as skiing in season . . . lake swimming . . . archery . . . dancing or just plain loafing. Telephone, telegraph and mail service. The main lodge is fully modern and equally comfortable are the furnishings in the bedrooms. The dining cabin seats forty to fifty guests served western style by the Ranch "chef." Recreation lodge and snack-bar has all hardwood floors for Saturday and Wednesday square dancing. You may reach "Jo" Guest Ranch by C.P.R. train or Greyhound bus to Pincher Creek, Alberta, local airfield Lethbridge, Alberta, or private landing at Cowley, Alberta (12 miles from the ranch). Come by automobile over a new hard surfaced road from any section of the country. Rates include meals, accommodation, horses, guides, local trips, ranch entertainment, etc., for as low as $50.00 per person per week. Rates on groups and week-end parties main lodge from $56.00 per person per week. Please enquire for new folder and rate card "Jo" Guest Ranch Beaver Mines, Alberta, via Pincher Creek, Alberta, or local travel bureau.

PIRMEZ CREEK—The Horseshoe A Ranch has accommodation for 30 guests and has 30 top grade horses and equipment for trail rides, hunting and fishing pack trips. The basic rate is $50.00 per week. Other attractions include a supervised children's playground, an outdoor riding school and a variety of local rodeos. A big game hunting lodge is operated in conjunction with the ranch. Horseshoe A is located 20 miles west of Calgary and is served by a daily bus service from that city.

RICINUS—The Big Horn Ranch is located five miles west of Ricinus, which is twenty miles south of Rocky Mountain House in the central foothills area. The ranch is operated by Mr. Jack Browning and includes two "D" cabins. Rates $40.00 to $50.00 per week, all inclusive.

SEEBE—The Kananaskis Ranch has 400 horses available on request. Guests are taken by reservation only, and no reservation of less than a week's duration is accepted. Special riding trips are conducted every day, in addition to moonlight rides and exploration trips. Banff, Lake Louise and Yoho Park are within easy access. The Seebe station is one mile south of the ranch and the bus terminal is north on the Banff-Calgary Highway. Rates sent on request. **The Diamond Cross Ranch** is on the main line of the C.P.R., 50 miles west of Calgary. Guests are met at the station by appointment.

About 18 guests can be lodged in modern log cabins, adjacent to the Stony Indian Reserve.

STONY PLAIN—Diamond B Guest Ranch, four miles north and three miles west of Stony Plain on district road. Nicely located and accommodates twenty-five per day. Supplies guides, food, horses and equipment for trail rides. No overnight accommodation. For rates and reservations write J. M. Byers and Associates, Stony Plain, Alta.

WATERTON LAKES—Lake Side Saddle Horses, an establishment located one mile east of town, with 45 head of horses, western and English saddles. Trips are arranged by the hour, day or week with experienced guides, pack outfits and camp equipment furnished. Good fishing.

Alberta's guest ranches will be pleased to provide you with further information concerning their attractions. Many ranches have illustrated folders which they will be pleased to provide on request.

Ski-ing in ALBERTA

Skiing in Alberta

The best of Canadian skiing is found in the Canadian Rockies, where powder snow lies 20 ft. deep and 3 mile downhill slopes a mile wide are commonplace. The famous "Alberta Sunshine" and the comfort of the lodges combine, in the Rockies, for an incomparable skiing holiday. Whether it be high country or low country, alpine or cleared trails, downhill or cross-country courses there's space and plenty of it. Canadian Rockies skiing equals the finest in the world. In this North American centre of alpine skiing the swish of skiis can be heard on the deep, powder-fast slopes from December through March, and in some areas until the end of April. Alberta's great ski playgrounds, the eastern section of the Canadian Rockies, range north to Jasper and south to Waterton on the International Boundary and include Banff National Park, and the Crow's Nest Pass.

BANFF—Altitude: 4,534 ft. (at town). **Transportation:** Canadian Pacific Railway main line 85 miles west from Calgary; Trans Canada Airlines to Calgay; Western Canada Greyhound Lines direct. Automobile: Canada No. 1 Calgary west 85 miles; Canada No. 18 from Radium Hot Springs 66 miles. **Season:** November through May. Alpine slopes, cleared slopes and championship courses.

HOTELS: Cascade—European plan, 64 rooms; **King Edward**—European or American, 59 rooms. **Mt. Royal**—European or American, 115 rooms; Other accommodations: Large variety of rooms and cabins. For further information write the office of Superintendent of Banff National Park.

Mt. Norquay—Five miles from the popular skiing centre of Banff the steep 8,725 ft. slopes of Mt. Norquay offer some of Banff's most exciting skiing. Scene of many championships, Mt. Norquay has a 2-mile downhill course with a stiff drop of 2,000 ft. Its full length is recommended for experts only. Several slopes of non-competitive design cater to the requirements of intermediate and novice skiers. (Flood light skiing is enjoyed regularly). A fully modern electric chair-lift, 3,240 ft. long, rises through a vertical distance of 1,300 ft. Although considered the steepest in the world, this lift embodies several new features to give the highest degree of stability and safety. For beginners, the cream of Canada's instructors hold classes at the 6,000 ft. level where there are suitable practice slopes. At the foot of these slopes a comfortable lodge provides fine meals and relaxation as well as an equipped ski shop. There is a tea room and look-out at the top.

Sunshine Lodge—Altitude: 7,200 ft. **Transportation:** 16 miles from Banff by daily Motor Transport. Variety of high country skiing; ski shop and repairs; rope tow and snowmobile; ski school and guides; unlimited powder snow touring.

The snow fields of this area at an altitude of 7,000 ft. offer endless alpine skiing on wide open slopes above the timber line and the breath-taking variety of runs from gentle practice slopes to thrilling downhill dashes. From December through May the skiing is superb and particularly during the spring months when warm and brilliant sunshine drenches the snow. This Alberta winter resort of the Canadian West, offers some of the greatest ski thrills to be found anywhere. Sixteen miles south west of Banff town Sunshine Valley is reached by bus or occasionally by "Sunshine Suzie" a six-wheeled snowmobile that is famed throughout the ski world. The tricky slopes of Twin Cairn, Carlyle Ride and Standish Hump are classed as the toughest in the district while Brewster Rock provides a variety to satisfy any ability. Accommodation and meals at the lodge are excellent. Cross-country touring is unexcelled, favorite trips being Mt. Assiniboine (11,860 ft.) and a 15-mile cross-country tour that takes in everything a skier could require.

LAKE LOUISE, Banff National Park, Alberta—Altitude: 5,050 ft. **Transportation:** C.P.R. main line; Trans Canada Air Lines to Calgary, Alta.; Western Canada Greyhound bus (November to May from Southeast and east only); by auto: Canada No. 1, from Calgary west (123 miles).

HOTELS: Lake Louise Ski Lodge—European plan, 40 beds (Lake Louise Station). **Mt. Temple Chalet**—American plan, 20 beds (north of Lake Louise Station, by bus 5 miles). **Skoki Lodge**—American plan, 35 beds (north of Mt. Temple Chalet, 4 miles by trail).

Forty miles northwest of Banff the Lake Louise area, down both sides of the Bow Valley, has some of the best deep snow downhill running in the Rockies. This is real ski touring country, guides are available with some of the better runs only a mile from the lodge.

Five miles up the Ptarmigan Valley the **Mt. Temple Ski Chalet** at 6,000 ft. is the starting point for such ski adventures as Richardson Bowl and Jackson Hill. Reached by comfortable heated station wagon from Lake Louise station. There is a comfortable chalet just below the timber line from which the snow field above stretches for miles. Seven miles northeast of Mt. Temple Chalet there is skiing on Drummond and Douglas Glaciers, the attraction of **Mt. Skoki** ski area. Lodge accommoda-

tions at the 7,000 ft. level. The season at both Temple and Skoki extends from Christmas to late spring and early summer. In this area one can climb to almost any height for a run that leads back to the lodge door. On Drummond glacier there is a drop of 5,000 ft. over several miles. Douglas glacier is a descent of one and three-quarter miles down 3,000 ft. Practice slopes are located on Deception Pass. A fine slalom course is located on the Fossil Mountain. Pika Peak and Ptarmigan glacier are favorites for late spring skiing. For details and rates write Lake Louise Ski Lodge, Lake Louise, Alberta.

JASPER TOWNSITE—Altitude: 3,470 (at the town). **Transportation:** Canadian National Railway main line 235 miles from Edmonton; Trans Canada Airlines to Edmonton; Western Canada Greyhound Lines from Edmonton; Automobile: No. 16 from Edmonton, 235 miles.

Season—Skiing available through the year on glaciers. Powder snow on open slopes, cleared slopes for beginners, intermediate and advanced. Mid December to mid April.

Columbia Ice Fields—70 miles south by auto and bus. Not accessible by car or bus in winter.

Marmot Basin—Transportation from town, 1 hour.

Whistler Mountain—Transportation from town (5 miles).

Tonquin Valley—Transportation from town and then approximately 10 miles by ski trail via Astoria River.

Edith Cavell—Transportation from town (18 miles).

HOTELS: Astoria—European plan, 32 rooms. **Athabasca**—European plan, 50 rooms. **Pyramid**—20 rooms.

At Jasper skiers have more than 4,000 miles of National Park in which to roam and the famous resort town serves as a centre. Two and one-half miles from town the slopes of Whistler Mountain provide plenty of downhill skiing. One course drops 4,600 ft. in 3½ miles, the upper half through smooth alplands above the timber line with lower sections through meadows and down a trail averaging 100 ft. in width. The lower slopes are equipped with a rope tow and warming huts. For winter vacations, competent guides conduct skiing parties far into the mountains to comfortable chalets or ski cabins.

Twenty miles from the town of Jasper is the **Tonquin Valley.** This area provides the finest of open slope, deep snow and glacier skiing. For the use of overnight facilities private arrangements must be made. Write F. Brewster, Jasper, Alberta.

Thirty-seven miles from Jasper the **Maligne Lake** area with its famous "Bald Hills" provides similar sport and private arrangements must be made for overnight facilities.

The **Mt. Edith Cavell** area, 18 miles from Jasper, is generally accessible by auto. This area has been the site of several excellent races.

Marmot Basin, a potential ski paradise, recently has increased in popularity. This Basin, 11 miles from town of Jasper, commences from timber line, 6,800 ft., and rises up three sides to the summit of Marmot Mountain, 8,577 ft. Every section of its 8 to 10 square miles is ideal ski terrain for expert or beginners. Snow falls indicate that the Basin will provide excellent skiing from November through May. The Basin proper is entirely free from winds generally found in higher country. Recently the up-trail was widened to permit passage of a snowmobile which makes Marmot Basin a comfortable one-hour ride from the village. At present an insulated Quonset hut is situated in the Basin to provide convenience and comfort during the day.

An excellent five-mile down-trail is being cleared from Marmot Basin to the Jasper-Banff highway. There are no overnight facilities at Marmot Basin but hotel and other accommodation in Jasper are excellent.

The Marmot Basin with proper and systematic development can become one of the finest ski areas in the Canadian Rockies.

The Columbia Ice Fields, 70 miles south of Jasper, provides year round skiing. From the summit of Mt. Snow Dome (11,340 ft.) to the Athabasca Glacier is considered one of the longest glacier descents in the world, a drop of 5,000 ft. in seven miles. The Columbia Ice Fields chalet, a fully modern building, is open for the summer months but private arrangements should be made well in advance. This area is the scene of an annual mid-summer downhill that attracts competitors from all parts of North America. The highway is closed during the winter.

CROWSNEST PASS

Although the Crowsnest Pass contains some of Alberta's finest alpland skiing, it is comparatively undeveloped. Most of the ski activities centre

around the cleared slopes adjacent to the town of Blairmore.

BLAIRMORE—Altitude: 4,235 ft. **Transportation:** C.P.R., 58 miles west from Fort Macleod, 49 miles east from Fernie; T.C.A. to Lethbridge, 88 miles west to Blairmore; Western Canada Greyhound Lines direct; automobile: Alberta No. 3, 58 miles west from Fort Macleod, 47 miles east from Fernie. **Season:** December through April. Alpine slopes and cleared slopes.

This comparatively recent ski development almost on the main street of Blairmore, is locally referred to as Tent Mountain. Under the guidance and interest of the local ski club, its development has been rapid and well planned. The downhill course begins at approximately 5,300 ft. and through cleared trails and open slopes decends 1,000 vertical feet over a 4,000 foot run. Slalom and practice slopes drop approximately 350 feet through 1,500 foot run. A rope tow of 1,300 feet is in operation and the lower slope is flood-lit for night skiing. A comfortable cabin operated by the ski club at the foot of the lower slope provides warming facilities. Attached to the club and using its facilities, the southern Alberta Ski School provides expert instructions.

The Crow's Nest Pass Ski Meet, held annually, has become one of the most popular competitive events of Alberta's ski season.

Excellent spring skiing is available in the Mt. Coulthard (8,688 ft.) area at the 7,000 ft. level where a warming cabin is available. This area is five miles by trail from Coleman which is four miles from Blairmore. Guides are available for high country skiing through the Crow's Nest Pass Ski Club.

HOTELS: Cosmopolitan—European, 30 rooms. **Greenhill Hotel**—European, 43 rooms, dining and ballroom facilities available. **Turtle Mtn. Playground Motel**—Dining and ballroom facilities, 12 cabins with cooking facilities. About 2 miles from Blairmore. Mailing address: Frank, Alberta.

For further information write Alberta Government Travel Bureau, Edmonton, or Crow's Nest Pass Ski Club, Blairmore.

WATERTON LAKES—Waterton Townsite: There is a small mountain practice slope west of the townsite and only a few minutes walk from town. This slope is being developed for the use of skiers staying in the townsite.

Above the practice slope, there are many natural ski runs with snow from November until the end

of April. A trail leads south from the practice slope to Mount Richards, a distance of three miles. This trail can be followed to the International Boundary with excellent natural ski slopes along its entire length.

In another direction from the practice slope, a trail runs for seven miles to Alderson and Carthew Lakes. A large basin at Carthew Lakes with a drop of 2,000 feet offers excellent skiing since it is full of snow the year round.

Cameron Lake Area: Each year around the 24th of May, Cameron Lake is the scene of the Waterton Lakes Spring Ski Tourney in which Canadian and American skiers take part. The snow lies ten feet deep in the winter here with an average yearly fall of about 40 feet. Skiing starts early in October and lasts almost the entire year.

East of Cameron Lake lies the Boundary Creek Valley astride the International Boundary. The upper end of this valley, bordering on Cameron Lake, has some beautiful natural ski slopes with runs of more than a mile in many places.

Pass Creek Valley: Pass Creek Valley, which resembles Idaho's Sun Valley, is three miles from the town of Waterton. Snow-covered slopes provide excellent skiing along the length of the ten-mile valley.

Accommodation: Although no hotels or restaurants are open in Waterton in the winter, skiers who wish to stay overnight or longer can be provided with accommodation at nominal cost by getting in touch with the Waterton Ski Club.

For special ski booklet write to Alberta Travel Bureau, Legislative Building, Edmonton, Alberta, Canada.

THE BANFF JASPER HIGHWAY

(Northern Section, from Saskatchewan River Crossing to Town of Jasper)

Miles from Banff (Read up)	POINTS OF INTEREST	Miles from Jasper (read down)

4.5	PICNIC FIREPLACE	181.0
3.5	THIRD VERMILION LAKE.	182.0
3.0	BEAVER DAM and lodges at side of road.	182.5
2.5	*SECOND VERMILION LAKE. Sulphur Mountain across Bow Valley to south. To southeast is a fine view of Mount Rundle, 9,838'.	183.0
1.5	FIRST VERMILION LAKE, south side of road.	184.0
1.3	JUNCTION, Mt. Norquay Rd. to chairlift and lookout 3½ miles.	184.2
0.0	TOWN OF BANFF. Headquarters for Banff National Park. Altitude 4,538'. Hotels, stores. C.P.R. station; hot springs and bath-houses. To Banff Springs Hotel 2 miles; Lake Louise, 40 miles; Calgary, 85 miles.	185.5

*IDEAL POINT FOR PHOTOGRAPHY

The Mounties

Famous traditional figure of the Canadian scene is the scarlet-coated Mountie. You'll find that detachments of Royal Canadian Mounted Police are located at key points throughout the province. Although the spirited steed has been replaced by a speedy automobile, the well-trained riders of the plains prance forth on horseback and full-dress regalia during the Calgary Stampede, the Banff Indian Days and on other special occasions.

The Mounties perform many duties for tourists. Some of their services for visitors include investigating automobile accidents, issuing weapon permits, reporting the condition of all roads and highways in detachment areas, providing information on and issuing permits for angling and hunting, safeguarding birds and animals which may not be hunted, providing the names of all licenced guides who have pack-horses and hunting equipment for hire or rent in their precinct and issuing permits for automobiles which are being used in Alberta for pleasure purposes but which have been registered in other provinces or states. This permit is issued free of charge.

Above all, be assured that the Mountie is eager to do his share in making your visit enjoyable. Invite his assistance whenever he can be of service. You will find him a trustworthy and valuable friend.

THERE'S A DIFFERENCE

Letters mailed in Canada must bear Canadian postage stamps.

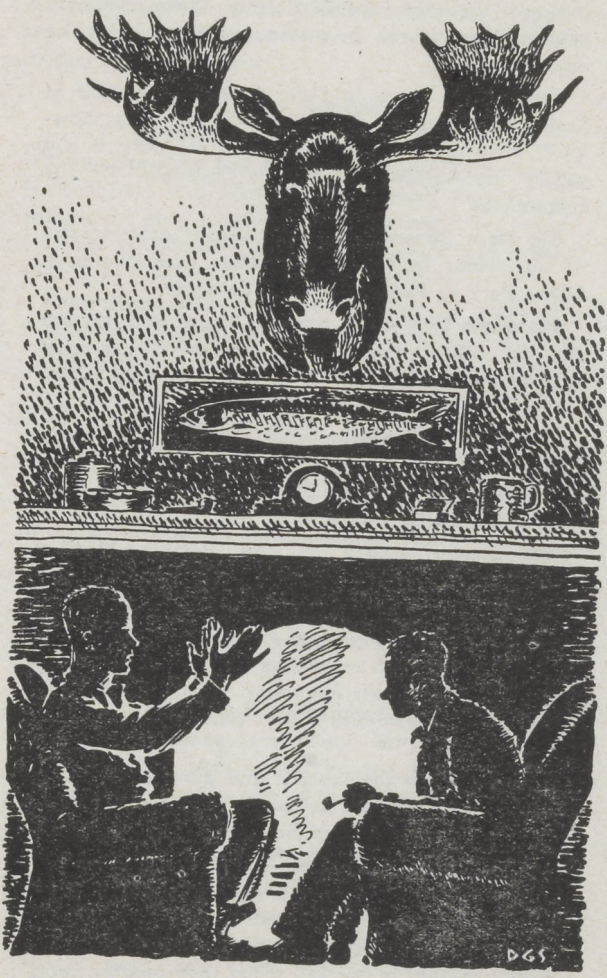

Six U.S. gallons of gasoline equal the volume of five Canadian gallons.

Many people who suffer most of the year from asthma, hay fever, or bronchitis have found welcome relief in the clear, high-altitude air of Alberta's mountain parks. Alberta's hay fever rating is zero except in the extreme south eastern section where it is only .7.

Information in connection with the Trail Riders of the Canadian Rockies may be obtained from the office of the Secretary-Treasurer, Room 233 C.P.R. Station, Winnipeg, Manitoba.

If you're visiting Alberta by private plane, bring your aircraft registration certificate, airworthiness certificate, log book and aircrew licence or certificate.

Hunting & Fishing IN ALBERTA

Hunting and Fishing

At time of publication, information concerning licences and open seasons was not available. Persons who are interested are requested to write the Alberta Travel Bureau, Legislative Building, Edmonton.

Alberta is 255,000 square miles in area. Open prairie in the south, merging into the foothills and mountains of the west, a central parkland area and the wooded north provide a variety of terrain which fosters similarly varied species of small and big game animals and birds.

Each year hunting in Alberta becomes more popular as word of the thrilling sport to be found here spreads throughout the world. Our National Parks and game preserves provide ample breeding grounds and the overflow from these inviolate sanctuaries ensures a continuous supply in the open territory.

Buffalo still roam in their native wild state in famed Wood Buffalo Park in the north. They, however, must not be molested, and this park is not easily accessible to visitors because of its remoteness.

Big Horn Sheep—The most sought after trophy of all, found in various localities from Waterton Lakes Park to Peace River in the north.

Mountain Goat—Has a wider range and, though the old billies choose their homes in the most rugged peaks, they are to be found in most mountain sections of the province.

Woodland Caribou—with their sub-species, Osborne Caribou, range from the Athabasca River north through the foothills and mountains to the British Columbia border.

Elk—Found mostly in the Pembina-Brazeau Reserve and in south-west corner of Alberta. As their numbers increased they spread to other areas.

Mule Deer—These larger-eared species are found in the foothills and mountains from Waterton Lakes Park to the northern boundary. Attractive hunting for sportsmen who can afford time and money for short trips only.

Moose—Roam the foothill and mountain regions but open seasons and areas are set or closed from year to year as conservation requirements demand.

Grizzly and Black Bear—Thrills for the hunter with a steady hand and a keen eye. In the fall they are found in the most unexpected places. They cover a wide range of territory and are very difficult to hunt in the fall when they feed on roots and berries in the timber and park areas. To ensure reasonable success, sportsmen should plan

their hunts in the spring when the bears come out on the green slides for their earliest food supplies.

Antelope—Abundant in the south-east of the province, there is often a special short fall season under special licence. Closed season.

Coyote—Found everywhere, the coyote provides many hunters with thrills keener than fox hunting. Timber wolf is found in the forests and unsettled areas north of the Athabasca and Clearwater rivers. Cougars also are taken in the mountain and foothills areas. Not protected.

Bird Game in Alberta

Alberta has been liberally endowed with breeding and feeding places for migratory and indigenous game birds. The far north always provides water holes for ducks and geese, with myriad lakes and riverways to ensure strong fall migration.

Sunday shooting and the use of live decoys are prohibited. Regulations on open seasons change considerably from year to year in the interests of maximum conservation.

Fishing Seasons

(Regulations subject to change)

Trout-Grayling and Rocky Mountain Whitefish—In Red Deer and North Saskatchewan Rivers and tributaries, May 1 to September 30. Bow River basin south of boundary, open all year. Athabasca basin June 1 to October 15. Limit 15 per day.

Lake Trout—May 16 to September 15. Limit 10 fish only; minimum length, 15 inches.

Pike-Pickerel and Perch-Goldeye—Open entire year. Limits, pike and pickerel, 15 in the aggregate; perch and goldeye, 25 in the aggregate.

License Fees—Resident: No license required except for trout, grayling and Rocky Mountain Whitefish, $2.25 for season or $1.00 for three days. Non-residents: $2.25 for season or $1.00 for three days. No licences required for children under sixteen years of age. Further information from Superintendent of Fisheries, Administration Bldg., Edmonton, or Alberta Travel Bureau, Legislative Bldg., Edmonton.

National Park Regulations

A fishing licence is required for all mountain national parks, except Glacier and Mount Revelstoke, and is good in any of these parks during the season.

The co-operation of anglers in completing creel census cards is greatly appreciated.

As special fishing regulations are in force from time to time, visitors are requested to consult park officers regarding open waters, season's catch limits, and fishing licences.

Firearms

Rifles and shotguns and fifty rounds of ammunition per person may be brought into Alberta without a special permit, but firearms must be registered upon arrival at a detachment of the Royal Canadian Mounted Police. Visitors are not permitted to carry handguns, revolvers or pistols, with them when entering Canada.

Alberta Licenced Outfitters

Name	Address

ALBERTA'S *Playgrounds*

NATIONAL AND PROVINCIAL PARKS "BAD LANDS" & BIRD SANCTUARIES

National Parks

BANFF NATIONAL PARK

The two main resorts in Banff National Park are Banff and Lake Louise, but other resorts are scattered throughout the area, where the tourist may enjoy the finest vacation of his life.

Banff has played host to scores of big names in every field. Hollywood has sent its movie stars; leaders of this nation and of other nations, royalty, military personages—all have enjoyed the mountain hospitality of this park. For accommodation information see Tourist Camp and Hotel Sections in this booklet.

Recreational facilities include golfing, tennis, swimming, skiing, fishing, riding and exploring. The chair lift on Mt. Norquay operates as a scenic attraction in summer as well as in winter. For many years the Banff School of Fine Arts has operated from a headquarters in this town. As many as 600 students have been enrolled in one season, studying drama, playwriting, ballet, history, speech and various forms of art and music. The school was established by the University of Alberta in 1933 and has been active since that time, with top ranking experts in the various arts on its faculty. For detailed information write Department of Extension, University of Alberta, Edmonton.

ELK ISLAND NATIONAL PARK

Located about 30 miles east of Edmonton, Elk Island Park has achieved outstanding popularity by virtue of its highly scenic setting and its large herds of wild animals. There are more than 1,000 bison, or plains buffalo, in the park, and all are splendid examples of their species, remnants of the romance of the old west.

The park has an area of 75 square miles, for the most part dotted with enchanting lakes and hills. Largest lake is Astotin, where the recreational center and park headquarters are located. Limited accommodation is provided and attractions include camping, swimming, boating, hiking, golf and nature study. For accommodation information see Tourist Camp and Hotel Sections in this booklet.

JASPER NATIONAL PARK

Jasper Park extends along the eastern slope of the Rocky Mountains and is bordered on the south by Banff National Park. The Jasper region is one of superb scenic grandeur. Mighty peaks lift snow-crowned heads far above the clouds. Broad alpine valleys are set with sparkling lakes and coursed by rushing streams. Within the southern part of the park lies part of the vast Columbia ice-field,

150 square miles in extent, a remnant of the great Ice Age.

Accommodation is extensive at Jasper, but the extreme popularity of the park warrants reservations in advance. Details will be found under "Tourist Camps" and "Hotels."

The attractions of the area include bathing, swimming, boating, climbing, hiking, fishing, golf, tennis, winter sports, motor drives and trail rides. The park is one of the greatest wild life scanctuaries on the continent and contains large numbers of big game animals native to the Rocky Mountains.

WATERTON LAKES NATIONAL PARK

Situated in the south-western portion of Alberta, on the eastern slope of the Rocky Mountains, Waterton contains many remarkable scenic features; mountains rising abruptly from the plains, the warm and colorful appearance of the entire region, Upper Waterton Lake, seven miles long and nearly a mile wide, lying within the trough of two great mountain ranges and crossed by the International Boundary.

The park is reached by Alberta's provincial highway system, from rail points of Cardston and Pincher Creek, by bus service from Pincher Creek. The best approach from United States is over the Chief Mountain International Highway from Glacier National Park, connecting with United States highway No. 89, four miles north of Babb, Montana.

Recreational facilities include tennis, bathing, and boating in a variety of craft, from motor boats to powerful launches. Other attractions include fishing, golf, hiking and climbing, riding, motor tours, visits to historical sites and an abundance of wild life. For accommodation see "Tourist Camps" and "Hotels."

WOOD BUFFALO NATIONAL PARK

Not easily accessible to the general public, Wood Buffalo Park, in the north-east section of the province was set aside as a game reserve when Wainwright buffalo reserve was closed in 1940.

Provincial Parks

ASPEN BEACH PARK—Located on the south shore of Gull Lake, near the town of the same name, west of Lacombe. Bathing, boating, picnics. No facilities for transient trade.

ASSINEAU RIVER PARK—Eighteen miles west of Slave Lake, on the Assineau River, No. 2 Highway. Picturesque setting with picnic and camping facilities.

BEAUVAIS LAKE PARK—About 15 miles southwest of Pincher Creek. Park contains 154 acres around Beauvais Lake. Private summer cottages. Excellent fishing. Picnic facilities.

BIG ISLAND PARK—Situated on an island within Lac La Biche Lake, excellent fishing and bathing facilities. At present only access to the island is by boat. Area 600 acres.

CRIMSON LAKE PARK—Nine miles north of Rocky Mountain House, turn north at west end of Rocky Mountain House bridge and follow a dirt road. Park is 6,500 acres around the lake in a heavily timbered area. Picnic grounds, bathing beach and private cottages.

CYPRESS HILLS PARK—Forty-three miles from Medicine Hat, 21 miles paved and remainder gravel part of the Medicine Hat-Havre scenic highway. About 75 square miles in area. Private summer cottages, tourist camp, service station. Boating, fishing, public playground. Picnic facilities. Strange formation of terrain contains rare specimens of preglacial plant, insect and animal life. Some species of small life found only in sub-tropical areas.

DILBERRY LAKE PARK—On Alberta-Saskatchewan boundary near Chauvin. In a region where such growth is sparse, the wooded shores of this charming lake provide excellent outing facilities.

DRUMHELLER PROTECTED AREA—North of Drumheller in the vicinity of the Munson Ferry was established to put a stop to unauthorized removal of fossilized remains of prehistoric animals of the dinosaur type. A secondary road extends through the valley from Drumheller, but the fossil beds must be reached on foot. The formations of the valley itself are highly interesting and sunset coloration most vivid.

GAETZ LAKE PARK—Situated adjacent to the northeast corner of the City of Red Deer. An area of 200 acres set aside and known as "The Sanctuary." Unmolested and unspoiled from its natural forest cover. Picnic facilities but recommended only for nature study.

GARNER LAKE PARK—Located on the south shore of Garner Lake, 2½ miles north of the Hamlet of Spedden on Highway 28. Bathing, boating, fishing and picnic facilities. No facilities for transient trade.

GOOSEBERRY LAKE PARK—North of Consort on the C.P.R. line east of Lacombe. Sports grounds, summer cottages. Accommodation available at Consort.

HOMMY PARK—Near Albright between Grande Prairie and Hythe, picnic and outing facilities.

KINBROOK ISLAND PARK—Sixty acres on an island nine miles south of Brooks in Lake Newell. The island is connected to the mainland by a causeway. It is reached by a gravelled district road. Private cottages, public playground, fishing. Picnic facilities.

LUNDBRECK FALLS PARK—On the Crows Nest Pass Highway west of Fort Macleod. Excellent fishing in a highly scenic setting. A few cabins are near the highway at the falls. Hotel accommodation at Blairmore or Pincher Creek.

MA-ME-O BEACH PARK—Situated 25 miles west of the city of Wetaskiwin, within the village of the same name. Private summer cottages, boating, fishing, public playgrounds. The Beach is particularly fine for small children.

PARK LANE PARK—Provides picnic facilities for residents of Picture Butte and Monarch districts near Lethbridge. No facilities for transient traffic.

RED LODGE PARK—Nine miles north-west of Bowden on the Little Red River. Picnic and recreational facilities.

ROCHON SANDS—On the south shore of Buffalo Lake, seventy-two miles north of Erskine. Summer cottages, beach, boating and picnic grounds.

SASKATOON ISLAND PARK—Four miles north of Wembley on a good gravelled road. Boating, swimming, picnic grounds. No facilities for transient trade, but good for trailers.

SYLVAN LAKE PARK—Eleven miles west of Red Deer, consists mostly of summer cottages. Hotel, dance halls, good boating, beaches particularly fine for small children.

TABER PARK—Forty acres on the south bank of the Old Man River, three miles north of Highway 3, a mile west of Taber. Picnic and recreation area.

VERMILION—Located on the Vermilion River at the town of Vermilion. Bathing, boating, picnic and recreational facilities.

WAPITI PARK—Situated 10 miles south of Grande Prairie, on the south side of the Wapiti River. Picnic and recreation facilities only.

WOOLFORD PARK—On the St. Mary River about ten miles south of Cardston. Consists of an island and part of the west bank of the river. Picnic and recreation grounds.

WRITING-ON-STONE PARK—On the Milk River east and north from Coutts. Reserve was established to preserve several peculiar natural obelisks which have been weathered into grotesque shapes and on which traces of petroglyphics may be the work of some ancient Indian people. Picnic grounds.

ALBERTA'S BADLANDS

On St. George's Island, in the city of Calgary, a fine collection of wild animals is on display in a modern zoo. And fraternizing with these modern creatures are huge, terrifying Dinosaurs, Brontosaurs and Sabre-toothed Tigers, Albeit these ancient creatures are molded of plaster, they are reconstructed in full life size and are convincingly real in appearance. Such huge reptiles as these made their home in Alberta's swamps and jungles long before the Rocky Mountains were formed.

Visible evidences of their existence are today delighting geologists. The saurian dynasty of fifty million years ago left its mark in the famed Badlands of the Red Deer River valley. Dinosaur Park, 88 miles north-east of Calgary, has been established as a tourist reserve, a fantastic conglomeration of hoodoos, coulees, red shale hills, ravines and flats. Petrified forests, pre-historic oyster beds, Horseshoe Canyon are all decorated with strange formations known as dolomites and ammonites. Aside from the fascination of the scientific and historical implications, the valley offers mile after mile of thrilling vistas, grand-canyon like splendor in the rays of the rising or setting sun.

Your chances of making a personal discovery are very good, with a little instruction you might conceivably unearth a splendid fossil, untouched for millions of years. But you won't be allowed to remove any fossils without proper permission from park wardens. However, you will get a thrill from your visit to this birthplace of history. Your voyage of discovery through this land of mystery will be a stirring memory for the rest of your life. Follow Highway Number 9 from Calgary to Drumheller.

HISTORICAL *Highlights*

Historical Highlights

This Alberta has never had to suffer the terrors of an invasion. The white man came to the prairies of this province as the friend of the unsuspecting Indian and betrayed him; traded rum for furs and, encouraging the wholesale slaughter of the buffalo, deprived the Indian of his source of food, clothing and shelter, leaving him in a state of penury and degradation. The North West Mounted Police, now named Royal Canadian Mounted Police, organized in 1873, and sent to Alberta, where under Colonel J. Farquharson Macleod they established Fort Macleod in 1874, were dispatched to stamp out the whisky trader and so save the Indian rather than conquer him. "The Red Coats of the Great White Mother" (Queen Victoria), and the pioneer missionaries, won the friendship of the Indians of the western plains so solidly and so surely that when the half-breed Louis Riel fomented rebellion in protest against the sale of the domain by the Hudson's Bay Company to the Dominion Government, the Indians remained loyal to the Queen, with the result that, while bloodshed occurred in Saskatchewan and a few settler's homes were raided by Indians, no open hostilities occurred on Alberta soil. There have been, however, inter-tribal Indian battles and moments of tense anxiety, many of which brought forth deeds of heroism and adventure which have since become legendary.

Alberta's history falls naturally into four periods, namely, the days of the whisky trader, the golden age of the cattle baron, the era of farm development and the era of industrial development, which is the present.

The National Park areas of Alberta were discovered first by early fur-traders (David Thompson 1810-11), who developed the "Athabasca Trail" the first well-used northern route from the Atlantic to the Pacific. This "Trail" followed the course of the Athabasca River from Lake Athabasca to near the present townsite of Jasper, thence by portage up the Whirlpool River to "The Committee's Punch Bowl" and down the Wood River to Boat Encampment on the northern bend of the Columbia River, where canoe flotillas completed the trip to the present site of Astoria, Oregon. Jasper House, named after Jasper Howse, a trader, was founded in 1813.

One of the first, if not the first, white men to reach the Banff district was Rev. Robert T. Rundle (1840), after whom the famous mountain was named. The hot springs at the Cave and Basin were staked as a homestead by a member of the Canadian Pacific Railway survey party in 1882. An area of ten square miles around this spring was

set aside as Canada's first national park in 1885.

Some of the historical spots in Alberta are marked by cairns erected by the Dominion Government upon the recommendation of the Historic Sites and Monuments Board of Canada. They include the following:

Calgary—Central Park—Cairn to commemorate the arrival of the North West Mounted Police, August 1875, and the establishment of their post on the west bank of the Elbow River. Another bronze tablet fixed to a large stone marks the site of the first Mounted Police barracks.

Cluny—Blackfoot Indian Reserve—Cairn to commemorate the signing of Indian Treaty No. 7, September 22, 1877, whereby 50,000 square miles of territory in the southwest corner of Alberta was surrendered.

Coutts—A cairn to commemmorate the "Fort Benton Trail" which was the main transportation route for ox trains to Fort Macleod before the Canadian Pacific Railway was built.

Edmonton—The Field Force Cairn—Near the Administration Building, Edmonton, is a monument with tablets commemorating the services of the Alberta Field Force under Major General T. B. Strange. The Force advanced from Calgary, via Edmonton, using wagon and boat transportation and engaged the Indians under Big Bear near Frenchman's Butte and at Loon Lake. The operations of this force averted the danger of an Indian uprising in Alberta.

Elk Island Park—A cairn commemorates the preservation of the plains buffalo.

Fort Assiniboine—Near Barrhead in Northern Alberta, through which passes the old Klondike Trail, marked now by the cellar of the fort, lying in a gravelly bench about thirty feet above the river level.

Fort Chipewyan—Near Dominion Observatory Station—Cairn to mark the site of Fort Chipewyan built in 1788 on Old Fort Point and removed to its present location about 1804.

Fort Dunvegan—Site of fort built in 1805 by the Northwest Company to promote fur trade.

Fort Fork—Tribute to Sir Alexander Mackenzie who wintered there in 1792-3 prior to his first overland journey to Pacific Ocean in 1793.

Fort Macleod—Fort Macleod commemorates the arrival in October, 1874, after an arduous march of 1,000 miles of the North West Mounted Police, and the building on the island immediately to the north-east of the town of the first fort. A cairn with tablet has been erected at the intersection of Second Avenue and 23rd Street at Fort Macleod. The fort was named after the commanding officer, Colonel J. F. Macleod, C.M.G. Their coming brought law and order into a wild and lawless

country, and made possible later the settlement of the country and the birth of its cities, towns, villages and peaceful farms.

Frog Lake—Cemetery—Cairn to the memory of those massacred here April 2, 1885, by rebel Indians under Big Bear during the North West Rebellion.

Gleichen—A cairn honors Crowfoot, Chief of the Blackfoot Confederacy, born 1830, died 1890. He maintained peace between his tribes and the whites during the Riel Rebellion.

Jasper—David Thompson Cairn was erected on Old Fort Point, near Jasper Park Lodge to commemorate the services of David Thompson, who in mid-winter 1810-11 discovered and travelled with ten companions through this area to the Columbia River. His path became the regular route across the mountains until the advent of rail communications. To Thompson Canada owes the first accurately-prepared map of the west, embodying the results of his surveys and explorations from 1789 and 1812.

Jasper House Cairn was erected at the mouth of Rocky River to mark the site of Jasper House post built by the Northwest Company between 1827 and 1829.

Henry House Cairn was erected near the bridge over the Athabasca River near Jasper Park Lodge to mark the site of Henry House founded by the Northwest Company in 1811. It later became an important point in the transportation system.

The Overlanders Monument at the C.N.R. station, Jasper, was erected to commemorate the journey of the Overlanders from Ontario to Kamloops and Caribou in 1862.

Lamoureux—Main Road—Cairn to mark the site of Fort Augustus, established by the Northwest Company, 1794, and Fort Edmonton, established by the Hudson's Bay Company, 1795, near Fort Saskatchewan.

Lethbridge—Galt Park—Cairn in the Galt Gardens, near the C.P.R. station was erected to commemorate the first coal mine in Alberta, which was opened on the west bank of the Old Man River by Nicholas Sheran in 1872. This mine supplied Fort Benton and other Montana places with coal for many years.

McMurray—Public School Grounds—Cairn to commemorate the events connected with the ancient Methye Portage trade route, discovered by Peter Pond in 1778 and used continuously for more than a century by fur traders and explorers.

Medicine Hat—Cairn near Medicine Hat Golf Club marks site of Police Point, headquarters of North-West Mounted Police from 1883 to 1891. The first establishment of the Mounted Police in Alberta, prior even to that of Macleod, was at Fort Walsh,

south of Medicine Hat. This was North-West Mounted Police headquarters from 1875 to 1883. It was while they were located here that Constable Grayburn was murdered by an Indian named Starchild in 1879, and Grayburn Gap, in the Cypress Hills, was named after the officer who was the first North-West Mounted Police casualty.

Mickle Cairn—On the site of the first church in southern Alberta, twenty miles south-west of Calgary, on the Elbow River. This tablet commemorates the missionary labors of Father Constantine Scollen, O.M.I., born in Ireland in 1841, who established the mission of Our Lady of Peace in the country of the Blackfoots in 1873.

Morley—Cairn honors Rev. George and Rev. John McDougall, pioneer missionaries, the Stony Indians and Southern Alberta Old Timers. On main highway.

Peace River—Fort Fork—Cairn and tablet on Lot 19, Shaftesbury Settlement near Peace River, marks the site of Fort Fork, where Sir Alexander Mackenzie wintered in 1792-93, and from which point he set out in May, 1793, on his quest for the Western Sea.

Rocky Mountain House—Main Highway—Cairn to mark the site of the post built by the Northwest Company, 1799, which was occupied on several occasions by David Thompson. The area comprising the site of this post was acquired and a tablet affixed to the restored remains of one of the original chimneys which are being preserved as rare examples of the primitive chimneys built by the fur traders in their forts long before that region had a settled population.

Rundle Memorial—Erected at Banff in memory of the Rev. Robert T. Rundle, Methodist minister, first Protestant missionary in Alberta (1840).

Wetaskiwin—The Peace-Makers—A cut stone monument and tablet facing Edward Street between Landsdowne and Peace Avenues in Wetaskiwin, to commemorate the public services of the Rev. Father Lacombe, O.M.I., and the Rev. John McDougall. During the hectic days of 1885 their influence with the Indians was a powerful factor in the preservation of peace in Alberta.

Other places of interest include the Great Divide, that is, the boundary between Alberta and British Columbia on the Banff-Yoho-Kicking Horse Pass. The "Great Divide" is here a place of meeting—not a parting. At the great divide between Alberta and British Columbia travellers pass to and fro enjoying the unparallelled scenery of the Rocky Mountains. Between the highway and the railway a small stream divides, one fork flowing into the Pacific and the other into the Atlantic Ocean.

Canoe Trips

Much of Alberta's history, and that of the west in general, was created by explorers who found water routes to be the most logical means of transportation. It is natural, therefore, that these same streams and rivers should provide fascinating vacation possibilities for canoeists, both novice and expert. As a matter of fact, the selection is complete from quiet, ambling creeks and streams to plunging rapids which test the mettle of the most experienced voyageur.

Canoeists should provide their own canoes and complete camping equipment. Enquiries for detailed maps, prices, etc., should be addressed to Topographical Division, Department of Resources and Development, Ottawa. Always report plans to R.C.M.P. before starting and report in at end of voyage.

JASPER-ATHABASCA LANDING

Excellent as a graduating course for novices. Begin near Jasper, on the Athabasca River, where low water often provides fast-moving sport. Thence through mountains and foothills, exploring tributary streams with ideal fishing sites, until the hills are left behind and long, clear stretches of river open new vistas. Groups of islands and mild rapids add interest to the trip. Distance is 350 miles, usually covered in 12 days.

LOVETT TO ENTWISTLE

A fine trip on the Pembina River through country thickly wooded with jack pine, spruce and poplar. Camp sites excellent, wild life abundant, splendid fishing and magnificent scenery. The route covers 200 miles and can be made in ten days.

ROCKY MOUNTAIN HOUSE TO EDMONTON

This route was often followed by the explorers and prospectors of the past and is very popular with modern canoeists. It is a very convenient trip both from point of embarkation and terminal, for facilities and supplies are complete and transportation excellent. Fine camp sites are available along the route and wild life is abundant. There are two or three stretches of white water, but nothing to cause any concern to the average boatman in search of a thrill. Ten or twelve days—250 miles.

PEACE RIVER TO McMURRAY

Alexander Mackenzie built Canada's history along this route. From Peace River town the river flows northward past Fort Vermilion and Red River Post, then along the southern boundary of Wood Buffalo Park, last stronghold of the bison herds. The country is magnificent and teems with big

game and fish. The voyageur crosses Lake Athabasca to the Athabasca River, thence upstream to McMurray, world-famed for fabulous tar sands. Take 20 days to go 700 miles. It's a fine trip, but not recommended to the novice. Some portages are necessary.

McMURRAY TO THE PAS

Here is a truly adventurous trip of 763 miles, usually made in a month or more. From McMurray, follow the Clearwater River, Methye Portage, Peter Pond Lake, Ile-a-Crosse Lake to the Churchill River. Follow a chain of lakes from Frog Portage to Cumberland House and the Saskatchewan River. This trip crosses the northern sections of three provinces, and though it was a standard route a century ago, guides may be difficult to obtain today. Supplies and equipment should be carefully selected, from the viewpoint of completeness and compactness. Canoes and boats may be purchased in Edmonton. Little difficulty should be encountered in securing rentals for the shorter trips.

Alberta Lake Resorts

The lake resorts of Alberta appeal to many as a welcome change from the forest and mountain areas. A few days spent at any of the safe and sunny beaches will work wonders with a tired body. More than a dozen of the lakes have attractive summer resorts, most of them reached by motor or train. Boating, fishing and swimming are the principal activities. Cottages and cabins provide accommodation at daily or weekly rates.

Cold Lake—200 miles north-east of Edmonton, highway 28. New hotel opened in January, 1953. Northern Alberta Railway.

Cooking Lake—25 miles south-east of Edmonton. Highway 14.

Chestermere Lake—11 miles east of Calgary. Highway 1.

Gull Lake—(Aspen Beach) 10 miles west of Lacombe, highway 2 to Lacombe, highway 12 to Aspen Beach.

Lac La Biche—140 miles north-east of Edmonton. Highways 28 and 46. Northern Alberta Railway.

Lac Ste. Anne—(Alberta Beach) 50 miles west of Edmonton. Highways 16, 43 and 33.

Lake Wabamun—(Seba Beach, Kapasiwin Beach) 60 miles west of Edmonton. Highway 16.

Pemmican Lake—12 miles south of Camrose.

Pigeon Lake—(Ma-Me-O Beach) Crystal Springs. 60 miles south-west of Edmonton. Highway 2 to Millet, local road to west; or highway 2 to Wetaskiwin, then highway 19 to west.

Pine Lake—25 miles south-east of Red Deer. Highway 2 to Penhold; 16 miles east on Highway 42.

Sylvan Lake—Highway 2 to Red Deer, highway 11 to west.

The Banff School of Fine Arts

The Banff School of Fine Arts was originally conceived in 1933 as a school in the arts related to the theatre, but today a wide selection of courses is offered. The school is becoming a major adult education and convention centre. The auditorium seats 700 and there is sleeping accommodation for 250 and catering for 400. Convention rates are $7.00 and $8.00 per day for room and meals.

Two kinds of courses are offered: a general course for students taking the course professionally or for personal recreation and enjoyment, and a University credit course for college students and teachers who wish academic credits. Both groups study under a faculty of distinction, each member a recognized leader in his field. Banff's natural setting and the quality of instruction provide an inspiring combination. The 1953 season extends from June 22 to Sept. 12.

Last year some 560 students from every province in Canada and from 22 states of the United States were in attendance.

Fees

(Subject to Change)

Drama	$60.00
Ballet	50.00
Summer short course in painting	30.00
Art	60.00
Weaving and design	55.00
Leathercraft and glove making	50.00
Oral French	60.00
Playwriting and short story	50.00
Radio writing and technique	37.50
Vacation course in photograph (3 weeks)	40.00

Music

Pianoforte	$55.00
Pianoforte and technique	75.00
Choral leadership	55.00
Singing	55.00
Class in strings	55.00

The school is held under the auspices of the Extension Department, University of Alberta, and further information in connection with fees, choice of accommodation and regulations may be obtained by writing to: Donald Cameron, Department of Extension, University of Alberta, Edmonton, Alberta.

PAINTING AND PHOTOGRAPHY

Mother Nature has used this province for a show-window. In all seasons, and in all parts of Alberta, tempting vistas and scenes are on display to awaken the creative urge in painters and photographers.

Whether you're a top-flight professional or an eager amateur you'll discover scenes on every hand that line themselves up almost automatically for your canvas or viewfinder.

Both the cities and the National Park areas are excellent sources of supplies and choice of equipment is complete. You'll find that clerks are eager to help you with your problems, ready to suggest possible sites for your pictorial record. The wild animals in the parks are, for the most part, virtual ham-actors who are quite flattered to have a picture taken.

And here's a point worth remembering. If your camera has lens stops or apertures, bear in mind the fact that actinic rays are more active in the mountain regions and your shot is likely to be over-exposed to a certain degree unless you stop down. One stop is usually sufficient. If shooting distance shots in black and white use a Wratten G a minus blue or similar filter; if shooting color use a haze filter.

Alberta Movies

(16mm. color)

Available through all outlets in U.S.A. (See list).

Rocky Mountain Trout—14 min. Shows skill and excitement of mountain fishing, and restocking operations.

Family Outing—20 min. Family camping trip in Banff National Park.

Ski Holiday—10 min. Enchantment and sport in powder snow above timberline.

You'll Take the Highroad—Scenic grandeur along the Banff-Jasper Highway.

Winter Carnival—10 min. Skiing and other winter sports at Banff winter carnival.

Alberta Vacation—17 min. General holiday activities and attractions of interest to tourists; Calgary stampede, fishing, driving, riding, climbing, swimming, etc., in unrivalled scenic grandeur.

In addition to the above, the following are available at the National Film Board of Canada offices, Daily News Building, 400 West Madison, Chicago, and at 260 Fifth Avenue, New York City.

Holiday at School—20 min. Activities of the Banff School of Fine Arts in the magnificent setting of the Rockies.

Ticket to Jasper—21 min. The story of a passport to grandeur along the pioneer trails in the Jasper Park region.

Song of the Ski—17 min. The story starts in eastern Canada and ends with the variations offered the skier in Jasper National Park.

Song of the Mountains—18 min. Wild life and scenery in Jasper National Park.

Autumn in Alberta—10 min. Magnificent coloring in the foothills and mountains of Alberta in autumn.

Other 16mm films in black and white only are obtainable from distribution centres.

About Yellowknife

You will enjoy the Yellowknife area where the last frontiers have been pushed north some 700 miles from Edmonton.

You will be fascinated by the all-night light, the purity of the colouring in the sky, the proximity to the Arctic Circle, the fishing.

In Yellowknife you may visit a gold mine, perhaps even see a gold brick poured and have your picture taken holding it. (No samples given away).

You will be amazed to find a very modern community hundreds of miles from the nearest railroad. Yellowknife has all the modern conveniences—in fact, everything you could wish for except congestion.

You may enjoy a few days, a week (or as long as you wish) of the best fishing in the world.

See the land which Sir John Franklin discovered only 130 years ago—and which few have seen since that time.

Of course, you may proceed to Yellowknife on your own, but we do recommend the following "packages" for your convenience and pleasure:

TOUR No. 1

7 Days: Defeat, Quyta or Hidden Lake

Day 1—Leave Edmonton airport in the morning by Canadian Pacific Air Lines Ltd. plane, arrive at Yellowknife after lunch, where you will be met and escorted. Then you fly by "bush plane" to the lake of your choice accompanied by a guide, and from then on you have nothing to worry about but **fish !**

Days 2 - 5—On the fifth day a bush plane will pick you up again. You will need fishing gear, which may be bought in Yellowknife if you do not wish to carry yours. A trophy is presented monthly for the biggest fish weighed in at Yellowknife.

Day 6—A short tour to points of interest in and around Yellowknife, and in the afternoon to one of the gold mines where you may see how gold is taken from the solid rock. Here you may be able to see a gold brick poured.

Day 7—The last day is left free for you to use as you wish until the CPA plane leaves for Edmonton.

Rates: $445.17 for one; $653.48 for two; $880.69 for three; $1102.02 for four.

TOUR NO 2

7 Days; Prosperous, Prelude or Upper Walsh Lake

This tour is the same as the above (No. 1) except that you are taken to a lake nearer to Yellowknife. Both of these tours are specially designed to suit the needs of those with moderate incomes.

Rates: $422.09 for one; $630.40 for two; $857.61 for three; $1073.54 for four.

TOUR NO 3

9 Days; Taltheilie Narrows

Until you reach Yellowknife, your first day is the same as has been outlined for Tour No. 1. You board a bush plane the same day and fly to the Great Slave Lodge, where your host—Len Morris of Cody, Wyoming, takes over.

At the lodge you will find the best of everything, including modern conveniences, and at the camp, the best fishing in the world. (Len says so).

On the 9th day you are returned to Yellowknife in time to catch the southbound CPA flight to Edmonton.

If you are a fisherman who wants to catch "the record"—and take it home to prove it—we can assure you it can be done at the Great Slave Lodge.

Rates: $742.59 for one; $1452.67 for two; $2171.47 for three; $2886.21 for four.

TOUR No. 4

9 Days; East Arm

As for all the tours, you start by going from Edmonton to Yellowknife on the first day, and in this instance you are taken by the scenic water route by fast power launch to the Mackenzie Lodge, 100 miles out of Yellowknife on the East Arm of Great Slave Lake.

At the Lodge Ted Hartley is your host, and he will look after your material needs in a royal way. And fish? . . . well, they sometimes call the place "Troutopia."

Again, as in Tour No. 3, you will be returned to Yellowknife in time to catch the CPA southbound for Edmonton.

Rates: $512.59 for one; $997.17 for two; $1486.47 for three; $1971.20 for four.

Rates payable in Canadian funds and based on Edmonton airport as point of departure. Season July and August only. Reservations must be made at least three weeks in advance via airmail or telegram to Yellowknife Tourist Bureau, P.O. Box 201, Yellowknife, N.W.T., Canada.
